## **AB 392 IS “A VERY REAL THREAT” TO PUBLIC SAFETY**

TO PROTECT LIVES AND IMPROVE PUBLIC SAFETY, we’re asking the Governor and Legislature to join us in opposing AB 392 — legislation that would force police officers to second-guess their decisions when seconds count, slowing their response time in emergencies and putting their lives and the lives of the people they protect at serious risk.

**To improve law enforcement, we urge you to join us in support of SB 230:**

- **Provides advanced training for police officers** to help them make the right decisions when faced with life-and-death choices — to protect innocent lives and the lives of officers
- **Adopts uniform “use of force” policies** that apply evenly across the state, from agency to agency, so every officer knows precisely when and how force is permitted

Crime victims, law enforcement and innocent Californians are counting on you to **oppose AB 392**. There’s a better way.
